

Harvey Heat Antifreeze

Harvey Heat Antifreeze

nontoxic, non-corroding, inhibited propylene glycol blend

Harvey Heat Antifreeze is for winterizing hydronic heating, cooling, potable water and closed loop solar systems. Contains inhibited propylene glycol which provides unsurpassed rust and metal corrosion protection.

Product	Harvey Stock Number	UPC Number	Case Pack	Ship Wt. Lbs.
Harvey Heat RV provides maximum burst protection. Ready to use—no need to dilute.				
1 gallon in plastic jug	016880	078864 168808	6	54
5 gallon in plastic pail	016890	078864 168907	1	44
55 gallon in drum	016895	078864 168952	1	485

Harvey Heat -50. Ready-to-use antifreeze with burst protection to -50°F. No need to mix with water. Use for the same applications as Harvey Heat -100 plus use for winterizing plumbing, boats, recreational vehicles, trailers, vacation homes, vacant apartments, spas and swimming pools.

1 gallon in plastic jug	016800	078864 168006	6	54
5 gallon in plastic pail	016810	078864 168105	1	45
55 gallon in drum	016820	078864 168204	1	505

Harvey Heat -100. Concentrated. Burst protection to -100°F. Non toxic, Propylene Glycol-based hydronic fluid and anti-freeze. Inhibited for use in hydronic heating, cooling, potable water and closed looped solar systems. Also for non-drainable fire hydrants and sprinkler systems. May be diluted with water. Contains 70% actives.

1 gallon in plastic jug	016850	078864 168501	6	55
5 gallon in plastic pail	016860	078864 168600	1	47
55 gallon in drum	016870	078864 168709	1	505

Harvey Heat -100A. Concentrated. Burst protection to -100°F. Specially inhibited for aluminum hydronic heating systems/boilers and solar systems. Protects against freeze damage and corrosion. Compatible with aluminum, brass, copper, cast iron, steel, stainless steel, solder, silver and cobalt. The ideal premium all-purpose hydronic fluid. May be diluted with water. Contains 70% actives.

1 gallon in plastic jug	016750	078864 167504	6	55
5 gallon in plastic pail	016760	078864 167603	1	47

Harvey Heat Arctic Grade. Inhibited pure concentrate version of Harvey Heat-100. Contains over 98% actives. Contains 94% to 96% pure Propylene Glycol with built-in inhibitor package to prevent corrosion. Safe for all systems containing plastic, vinyl or rubber components. Freight and space saver. Dilutes with water.

1 gallon in plastic jug	016910	078864 169102	6	56
5 gallon in plastic pail	016905	078864 169058	1	45

Inhibitor Booster

Liquid corrosion protection additive. Use to adjust pH of hydronic systems charged with Harvey Heat antifreeze. One bottle will raise pH about one level per 20-gallon content. Recharges older systems.

16 fl. oz. (1 pint) in plastic bottle	016920	078864 169201	12	12
---------------------------------------	--------	----------------------	----	----

CoolTrack® Coolant Test Strips

Each strip tests freeze point/boil point and acid corrosion protection.

50 strips in plastic bottle	016899	078864 168990	1	1

Spa / Hot Tub Chemicals

All of Harvey's spa chemical containers offer child-resistant caps or lids. All are formulated to provide everything you'll need to start up a spa or hot tub and then to properly and safely maintain it. Harvey's spa chemicals are compatible with other spa or hot tub treatments, but NEVER mix spa chemicals together before adding them to the water.

Brominating Tablets EPA Reg. No. 6836-116-60022 EPA Est. No. 60022-NB-001 brominating hydantoin for spas and hot tubs

Brominating Tablets will disinfect spa and hot tub water when used as directed, keeping it clean, clear and free of odor.

Product	Harvey Stock Number	UPC Number	Case Pack	Ship Wt. Lbs.
3.5 lbs. net wt. in plastic tub	039900	078864 399004	6	23

Bromine Base

produces and maintains bromine reserve in spa and hot tub water

Bromine Base is a mixture of bromine salts which remain as a stable bank in the water until Harvey's Brominating Tablets or Harvey's Shock Treat are added. It is stable at high temperatures. Speeds up distribution of brominating tablets.

16 oz. (1 lb.) net wt. in plastic bottle	039905	078864 399059	6	8
--	--------	----------------------	---	---

Shock Treat

Bromine catalyst to oxidize contaminants in spa or hot tub water

Shock Treat is a non-chlorinating oxidizing agent. It is easily soluble and oxidizes and destroys most organic contamination normally found in spa and hot tub water. Works very fast with very little spa downtime.

18 oz. (1 lb. 2 oz.) net wt. in plastic bottle	039910	078864 399103	6	8
--	--------	----------------------	---	---

Non-Foaming Algaecide EPA Reg. No. 47371-107-60022 EPA Est. No. 60022-NB-001 controls growth of algae in spa or hot tub water

Non-Foaming Algaecide keeps water free of visible algae and slime while improving filter operation. It is efficient and stable and will not harm tile, concrete, metal or plastics. Works very fast with very little spa downtime.

16 fl. oz. (1 pint) in plastic bottle	039915	078864 399158	6	7
---------------------------------------	--------	----------------------	---	---

Granular Defoamer

removes annoying bubbles in spa or hot tub water

Granular Defoamer is used to effectively remove the annoying bubbles that appear in spa or hot tub water. It is long-lasting and effective at all temperatures.

16 oz. (1 lb.) net wt. plastic bottle	039920	078864 399202	6	7
---------------------------------------	--------	----------------------	---	---

Bright 'n Shine

concentrated water clarifier

Bright 'n Shine is a concentrated water clarifier for spa or hot tub water. It will clear cloudy, discolored water, regardless of pH, and leave it with a bright and shiny sparkle.

16 fl. oz. (1 pint) plastic bottle	039925	078864 399257	6	8
------------------------------------	--------	----------------------	---	---

Boldface UPC number indicates UPC symbol printed on package. § indicates Spanish/English packaging.

pH Plus / pH Minus

increases or decreases pH in spa or hot tub water.

The recommended pH range for spa or hot tub water is 7.2 to 7.8.

Product	Harvey Stock Number	UPC Number	Case Pack	Ship Wt. Lbs.
pH Plus eliminates water acidity which causes equipment to deteriorate and causes irritation to skin and eyes. Helps reduce water odors; helps chlorine or bromine last longer.				
pH Plus 16 oz. (1 lb.) net wt. in plastic bottle	039930	078864 399301	6	7
pH Minus is a fine granular powder easily dissolved to protect equipment from deterioration caused by excess alkalinity.				
pH Minus 20 oz. (1 lb. 4 oz.) net wt. in plastic bottle	039935	078864 399356	6	9

Mineral Minus

removes minerals that cause stains in spa or hot tub water

Mineral Minus works hard to attract the minute particles of minerals naturally found in water and gently flushes them through the spa or hot tub filtration system. Removes rust stains.

16 fl. oz. (1 pint) in plastic bottle	039940	078864 399400	6	10
---------------------------------------	--------	----------------------	---	----

Granular Fragrance

concentrated Midnight Jasmine

Granular Fragrance dissolves instantly and leaves your spa or hot tub with a pleasant, appealing scent. It contains moisturizers and softeners but leaves no lingering odor on skin. Sets up a relaxing atmosphere.

10 oz. net wt. in plastic bottle	039945	078864 399455	6	4
----------------------------------	--------	----------------------	---	---

Spa Cleaner

spray and wipe hard surface cleaner

Spa Cleaner removes soap scum, body oils, grease, soil, lime, scale and mildew from all hard surfaces. No rinsing needed.

11 oz. net wt. in plastic bottle	039050	078864 390506	6	5
----------------------------------	--------	----------------------	---	---

Spa Starter Kit

contains everything needed for spa or hot tub start-up

Spa Starter Kit contains one each: 4 oz. Brominating Tablets, 6 oz. Bromine Base, 6 oz. Shock Treat (non-chlorine), 6 oz. Granular Defoamer, 8 fl. oz. Mineral Minus, 8 fl. oz. Bright 'n Shine Clarifier, 6 oz. pH Plus, 6 oz. pH Minus, 6 oz. Granular Fragrance, 25-pack Bromine Test Strips and helpful instruction/troubleshooting brochure.

Hand Cleaners

Professional Strength Hand Cleaners

no water needed!

E-Z Wash Hand Cleaner with pumice is tough on dirt, yet gentle on hands. White scented lotion contains natural glycerin.

NEW AND IMPROVED Cit-Grit Hand Cleaner with pumice has natural emollients and moisturizers that will not dry skin. This fresh citrus-based hand cleaner is biodegradable and contains natural glycerine to condition hard working hands. It can be used to safely remove tough grease, grime, dirt, resins, printer's ink, paint, glue, rubber gasket and tile cements.

Power Scrub Hand Cleaner with pumice is biodegradable and is an excellent plastic pipe cement and paint remover. Freshly scented, it is a safer alternative to harsh solvents and thinners. Contains natural glycerin and pure mineral oil for superior moisturizing. Won't clog drains. Our most powerful hand cleaner.

Water Softener Care

Resin Cleaner / Water Softener Conditioner and Cleaner

easy to use! With childproof cap

Resin Cleaner removes iron minerals and scum from manual and automatic water softeners. Use to clean heavily iron-fouled beds or as a preventative treatment. Very concentrated.

Resin Cleaner, 32 fl. oz. (1 qt.) plastic bottle	039830	078864 398304	6	17
---	--------	----------------------	---	----

Humidifier Care

Humidifier Water Treatment & Cleaner and Descaler

extra strength, with childproof cap

Humidifier Water Treatment keeps your humidifier in top condition by preventing lime scale buildup. It works quickly and is economical to use in furnace, ultrasonic, vaporizer and evaporative humidifiers.

Humidifier Cleaner & Descaler puts your humidifier in top condition by removing sludge deposits and lime scale buildup. It is recommended for furnace, ultrasonic, vaporizer and evaporative humidifiers and their filter belts.

Surface Cleaners

Fiberglass, Kitchen & Bath Cleaner, All Purpose Solvent

three indispensable products

Fiberglass Cleaner is specially formulated for cleaning molded fiberglass bathtubs and shower units, boats or any fiberglass surface. Flip-top cap. Clinging action holds it on the surface.

Kitchen & Bath Cleaner is extra thick and rapidly dissolves heavy buildups of lime, scale, soap scum and hard water problems on tubs, sinks, showers, toilets, chrome, fiberglass, stainless steel, pots, pans, tea kettles and dishwashers. Flip-top cap.

All Purpose Solvent is a blended solvent containing refined citrus oils. It is free of chlorinated hydrocarbons (CFCs), butyl ethers, methanol, aromatic petroleum solvents and environmentally harmful ingredients. Ready to use; it removes grease, oil, adhesives, glue, marker ink and much more. Easy pour spout.
